English

Bangla

PROFILE

I am Md Jahid Hasan. I am a Full Stack Web Developer from Bangladesh with one year plus job experience.

I generally like to take on new challenges and want to try new things. I love to solve complex problems. I usually use HTML, CSS, Bootstrap, JavaScript, and jQuery for frontend design and PHP, and Laravel for the backend. I have worked in Fiverr & Freelancer international marketplace—also have basic knowledge of Graphic Design.

I am very dedicated to my work. I try to do my work on time at any cost.
